

Nithipat Lertsopaphan, UX/UI Designer

+66(0)62-3403689 | nithipat.lerts@gmail.com | <https://nithip0rt.vercel.app>

UX/UI Designer with 3 years of experience bridging business strategy, engineering, and commercial teams to deliver logic-driven product design. Skilled in translating complex stakeholder needs into scalable design solutions and influencing product direction, with hands-on experience in design systems, developer handoffs, and AI-integrated workflows. Currently driving product design at Living Insider Co., Ltd. across a 6-team organization.

Professional Experience

Living Insider Co., Ltd.

UX/UI Designer

September 2025 - Present

- Collaborated with a cross-functional team to build a scalable, multi-brand design system with 40+ components spanning web and mobile app, across 3 organizational levels, reducing average feature design time by 33%.
- Gathered stakeholder and user feedback on prototypes to inform iterative design refinements, restructuring the developer handoff workflow and reducing post-handoff implementation rework by approximately 15%.
- Secured alignment between leadership, Product Owners, and engineering by grooming backlog tickets with the dev team and running design sprint planning in Jira, bridging business vision with technical feasibility through logic-driven solutions.
- Applied user research and AI-integrated workflows to drive data-informed design decisions, streamlining the ideation process to meet both user needs and business objectives.

Witsawa Corporation Co., Ltd.

UX/UI Designer

October 2023 - August 2025

- Contributed end-to-end design across 4 web and mobile products, owning the full process from wireframing to high-fidelity developer handoff.
- Synthesized findings from 3+ user research and competitive analysis sessions into actionable product requirements, ensuring design decisions aligned with both user needs and business objectives.
- Led 10+ stakeholder presentations as the lead designer, communicating design rationale and strategic value to secure project approvals and cross-team alignment.
- Created visual identities for 2 internal products and enhanced 1 client-facing brand, ensuring consistent brand experience across digital platforms.

Certification

Google UX Design Professional Certificate

Google Career Certificates / June 2024

UX/UI Design Certification - Unlock Skill UX/UI

UX/UI Studio / July 2023

Education

Bachelor of Architecture, Thai Architecture

Silpakorn University, Bangkok/ 2017-2022 / GPA 3.40 / 2nd class honours

Skills

Wireframing & Prototyping - Figma, Variable Collections, user flows, handoff, interactive prototyping, auto Layout

Design Systems - 40+ components, multi-brand, scalable documentation and component library

Stakeholder Alignment - Cross-functional, 6-team orgs, leadership to engineering

Logic-Driven Design - Systematic problem-solving, product thinking, high-density data

UX Research & Synthesis - User interviews, competitive analysis, actionable product requirements, accessibility

Cross-functional Collaboration - End-to-end lifecycle, Jira sprint planning & ticket structuring, Dev/QA partnership

Technical Auditing - Over States, Edge Cases, dev friction reduction

AI-Integrated Workflow - Ideation acceleration, repetitive task automation
